## Did You Know?

CastleTop is a diamond-shaped flat metal shingle that gives a historical or unique roof or wall appearance.

### Material

- .032 aluminum stucco embossed
- 16 oz. Copper
- Zinc (pigmento and weathered series)

### Features

- Lightweight material
- Modular 78 pieces equal 100 sq ft
- Hidden fastener
- Expanded polystyrene (EPS) backer for support and noise reduction

### Benefits

- Unique design that can be used as a roof or wall panel system
- Ability to use multiple colors to create a design
- Great alternative to vertical or flat seam panels
- More depth than traditional flat lock diamond panels
- Often used on historic renovations and unique architectural applications
- Florida Building Commission (FBC) Product Approval
- UL Class A Fire Rated and UL Class 4 Impact Resistant
  - Consult factory for system assemblies
